DATE COMPLETED:	

## DESIGN TEMPLATE

Below is a template of a typical utility box, showing four sides and the top. Use this template to illustrate your color rendering.

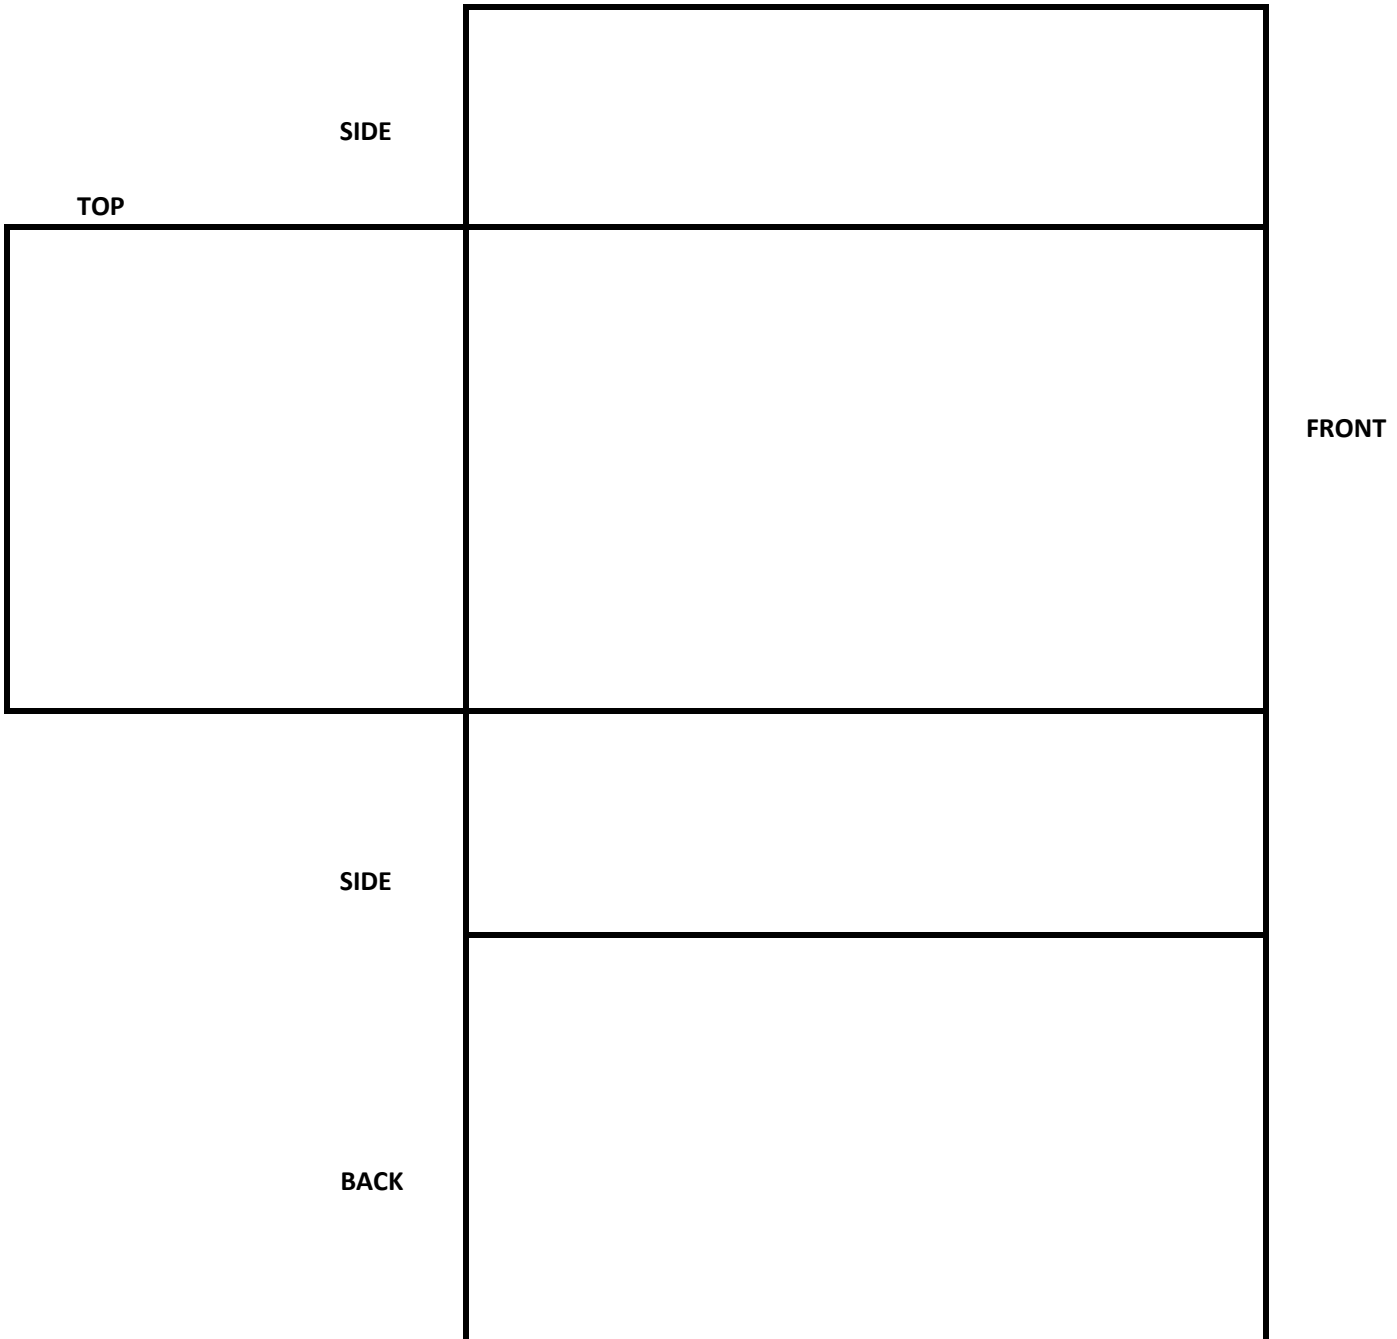

The artwork on this template must closely replicate the art that will be painted on the utility box.

Actual utility boxes vary in size and shape and contain various vents, seams, doors, handles and warning labels.

Unique colors and bold graphics work well, along with bright images that can be seen from a distance.

Artwork using a majority of dark colors cannot be considered due to the potential overheating of the utility box.

The selection committee will use this submission along with the application to select winning artists.
